Police pursuits are inherently dangerous and that is why the Los Angeles Police Department takes every step to develop tactics and mitigate the risk posed by these dangerous interactions. The LAPD is currently reviewing the Civil Grand Jury's report, and will have a response to the findings within the 90 day deadline. We are encouraged by the Grand Jury's positive assessment of our "state of the art" Edward M. Davis Training Facility, where all academy recruits learn, practice and hone techniques to safely bring suspects into custody. We are constantly reviewing our policies and procedures to ensure they support what we value the most: the preservation of life. We look forward to working with the Civil Grand Jury to maintain the high standards expected of our Department.
